THE NBC LEARNING JOURNEY

What Happens During the Year

STAGE 1 — INVESTIGATION

NBC Teams explore their community to identify genuine problems that need solving. They gather data, conduct interviews, and choose the issue their members will tackle that year.

STAGE 2 — PLANNING

NBC Teams set clear goals, assign roles, create timelines, prepare budgets, and develop a step-by-step project plan under the guidance of their teacher advisor.

STAGE 3 — ACTION

NBC Teams execute their plan, implement their solution, and create measurable, real change within their community, learning by doing every step of the way.

STAGE 4 — REFLECTION

NBC Teams review what worked, what didn't, and what they learned. They document their journey honestly and prepare their story for the wider world.

STAGE 5 — DEMONSTRATION

At the Grand Finale, NBC Teams present their achievements to parents, teachers, and stakeholders, inspiring the next wave of Nation Builders across Nigeria.

Every NBC Team is guided by a teacher advisor. Each Team keeps detailed project records at every stage — building real portfolio experience from day one
